Look closely. Talk about what you notice.

1)

**Child**

We can observe solid and liquid.

Living / nonliving / not sure

2)

**Dog**

Scientists look closely.

Living / nonliving / not sure

3)

**Tree**

Scientists ask questions.

Living / nonliving / not sure

4)

**Flower**

We can share what we notice.

Living / nonliving / not sure

5)

**Bird**

We can observe solid and liquid.

Living / nonliving / not sure

6)

**Butterfly**

Scientists look closely.

Living / nonliving / not sure

7)

**Car**

Scientists ask questions.

Living / nonliving / not sure

8)

**Chair**

We can share what we notice.

Living / nonliving / not sure

Listen to each short story. Choose the best answer.

1)

Mia sees a flower. She asks how it connects to solid and liquid.

Tell your answer.

2)

Mia sees a bird. She asks how it connects to solid and liquid.

Tell your answer.

3)

Mia sees a butterfly. She asks how it connects to solid and liquid.

Tell your answer.

4)

Mia sees a car. She asks how it connects to solid and liquid.

Tell your answer.

5)

Mia sees a chair. She asks how it connects to solid and liquid.

Tell your answer.

6)

Mia sees a ball. She asks how it connects to solid and liquid.

Tell your answer.

7)

Mia sees a book. She asks how it connects to solid and liquid.

Tell your answer.

8)

Mia sees a rock. She asks how it connects to solid and liquid.

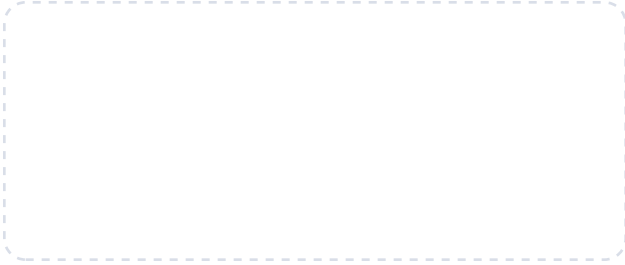

Tell your answer.
